

Like Father, Like Son

Dominic Lagana created a carpool,
and a tighter bond with his sons

After putting 38 miles a day on his car, Dominic Lagana decided that it was time to try something new. Once he determined that carpooling was the best way to go, he didn't have to look farther than his front door to find two willing carpool partners: his sons!

Dominic Lagana and his two sons, Elio and Anthony Giglioli, share the ride to work five days a week. Ever since his sons started working with him at Cashman Equipment three years ago, the three have carpooled every day and haven't looked back. They started carpooling to save money on gas and take action to better the environment, and now they're hooked.

Dominic says their drive to work is a great bonding experience, and his son Elio agrees that "we talk a lot more, and get to know each other a little better."

They use their commute to talk about their lives, school, sports and the family's upcoming plans. "We talk about fixing cars and day-to-day things, like what we're going to do for the weekend, or what we're going to have for dinner."

Dominic's other son Anthony enjoys that he's got "more quality time with my brother and dad before work and after work."

And since their employer, Cashman Equipment, is a Club Ride partner, Dominic, Anthony and Elio are all eligible for [Club Ride Rewards](#), a financial incentive program for commuters who carpool, vanpool, take transit, walk, bicycle or ride a motorcycle to work.

For logging 4-11 alternative commutes per month, Dominic and sons are eligible for \$5 gift cards and Club Ride merchandise. For logging 12 or more alternative commutes, they are eligible for \$25 and \$50 gift cards. So not only are they saving money on gas and wear and tear on their cars, but they can *earn* money as well.

Let Club Ride help you find a carpool or vanpool partner, assuming of course, that you aren't as lucky as the Laganas - and have to look outside the family!

"We talk a lot more, and get to know each other a little better."
