

The planned CCT will provide the RTC with a new transit terminal located in downtown Las Vegas.

This new transit terminal will include a first of its kind for Las Vegas with:

- Bicycle stations capable of storing up to 120 bicycles
- Restrooms with showers
- Bicycle repair shop

CCT is intended to be a state-of-the-art transit facility that will include:

- Sustainable features - Leadership in Energy and Environmental Design (LEED) Gold

The new facility is anticipated to be complete in 2010

CENTRAL CITY TERMINAL (CCT)
