

Sahara Express Bus Rapid Transit Improvement Project

SPECIAL PROJECT UPDATE

As part of the Sahara Express BRT project, the final paving along Sahara Avenue is underway and will take place over the next three weeks, as weather permits. Because weather and temperatures impact paving conditions, it is necessary to move the remaining project paving activities from overnight work to daytime hours. Daytime paving will have temporary traffic impacts and there may be significant delays. The following work is scheduled*:

When: Tuesday, November 8 through Thursday, November 10, 2011
9:00 a.m. – 7:00 p.m.

Where: Sahara Avenue from Rainbow Boulevard to Durango Drive:

What: *Paving of the top layer of asphalt* will take place during daytime hours. Work will require intermittent traffic stops and detours at intersections. Construction flaggers will direct traffic in the area.

When: Monday, November 7, 2011
9:00 a.m. – 7:00 p.m.

Where: Sahara Avenue from Hualapai Way to Durango Drive:

What: *Paving of the top layer of asphalt* will take place during daytime hours. Work will require intermittent traffic stops and detours at intersections. Construction flaggers will direct traffic in the area.

***Please continue to watch for the weekly construction update with specific activities in each area of the project.**
